

Before using these instructions to connect to the Austin Community College Staff wireless network you must first obtain your ACCEID login. To create your ACCEID please visit the following link..<http://www.austincc.edu/acceid/>

## **OSX 10.4 Wireless Setup**

These are instructions for setting up OSX on the Cisco Clean Access Authorization server for wireless connectivity.

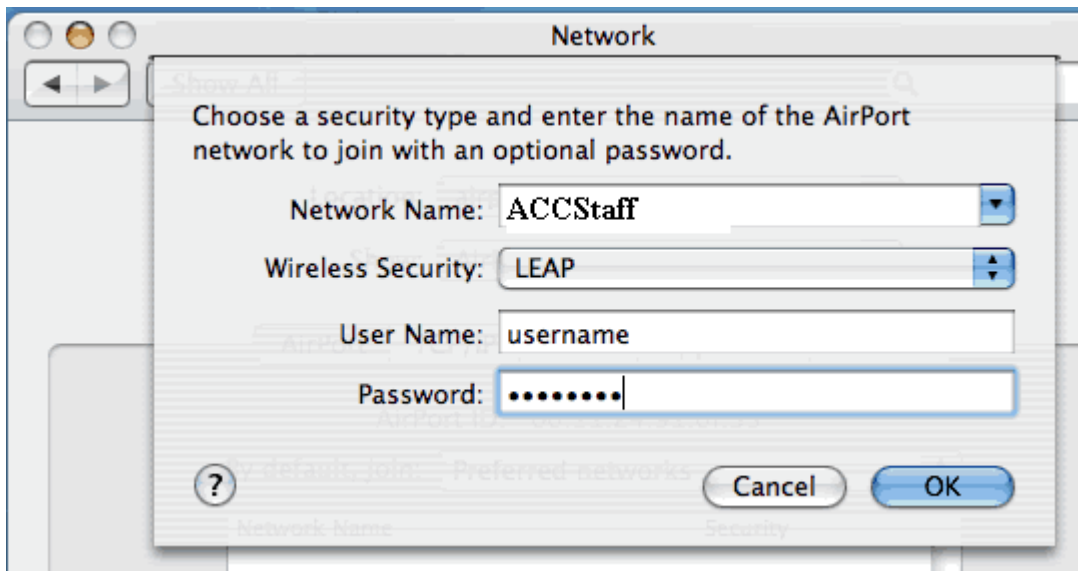

Here are the steps:

1. Go to the Network pane under System Preferences and show Airport and click the Airport tab.

2. Be sure the “By default join” menu is set to “Preferred Networks”.

3. Click the “+” button.

4. Under “Network Name” click the dropdown box and choose the appropriate SSID or manually enter “ACCStaff”.

5. Under “Wireless Security” choose LEAP.

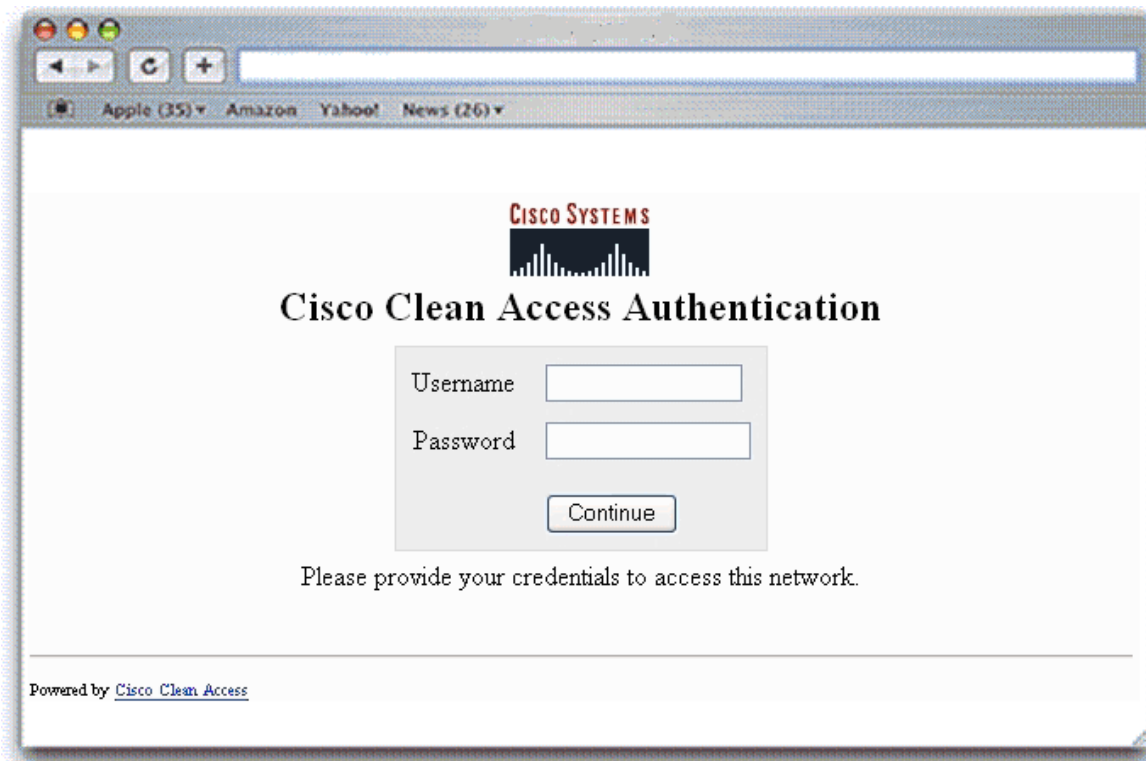

6. Fill in your ACCeID username and Password.

7. Click “Okay” and “Apply now”

8. Under the Network pane, click TCP/IP and verify that it got an IP other than a 169. ?. ? ? .

9. Open a browser and you should be directed to a Cisco Clean Access Authorization page asking for a login. Login with the user’s email account information.

You should be able to get online at this point.

If you are not able to connect via these instructions please see the workaround at the following link on Apples site.
