Name: ______________________

**Post-Test Analysis**

Using a scale from 1 to 10, indicate your best assessment of how you did on the exam.

1. How well did you **plan** on preparing for this test?
   - Very poor
   - O.K.
   - Very well
   1 2 3 4 5 6 7 8 9 10

2. How well did you **actually** prepare?
   1 2 3 4 5 6 7 8 9 10

3. How accurate was your "prediction" of the test?
   1 2 3 4 5 6 7 8 9 10

4. How well did you feel that you did on the test at the time?
   1 2 3 4 5 6 7 8 9 10

5. How challenging was the test?
   - Very easy
   - About average
   - Very hard
   1 2 3 4 5 6 7 8 9 10

6. How many hours did you spend studying for this test? How did you study? When?

7. **After** reviewing the results, place a mark for *each* error in **one** of the categories below:
   - Did not study the specific material?
   - Did not *learn* the specific material?
   - Could not remember what you “knew”?
   - Misunderstood concept or material?
   - Left an item blank or failed to answer?
   - Made a careless mistake in marking?
   - Did not read question carefully?
   - Did not fully answer question?
   - Was not clear, precise, detailed or thorough enough in your answer?

   Test Preparation Errors

   Test Taking Errors

What sort of pattern do you see? By becoming aware of the types of errors you made, you can more easily select methods to reduce their occurrence in future test situations.

8. What helped and what got in the way of doing well on this test?

9. What have you learned from this test and what will you do differently next time?
