Video Study Questions for Episode 12 .....	183

## PREFACE

This manual has been written especially for the Biology 1309 – **LIFE ON EARTH** course offered at Austin Community College. Although various editions of the *Life on Earth Study Guide* have been available for many years, the study guide was substantially revised in August 1997, May 2001, May 2002, December 2003, and again in spring 2006. This manual, *Life on Earth: Concepts and Questions*, is designed to supplement the video programs. We hope you find it a useful tool to guide you through the course.

We are indebted to David Attenborough for his genius in developing this series of programs. We would also like to thank Sarah Strong and D'Maris Allen for their substantial input into this study guide.

Bernice Speer  
Associate Professor, Biology  
Riverside Campus  
Austin Community College

Betsy Maxim  
Professor, Biology  
Riverside Campus  
Austin Community College

David Froehlich  
Professor, Biology  
Northridge Campus  
Austin Community College
