RATIONALE

A fundamental principle of the policy-governance style of operation is that the Board decides on its own priorities for the use of its limited time. One of the conclusions of the Board self-evaluation retreat held in mid-October 1999 was that periodic whole-Board planning discussions would assist the Board in operating according to this principle. This meeting is to discuss plans for Board activities through July 2003. A similar meeting would be held in June or July for the following six months.

BUDGETARY CONSIDERATION
