

## Chapter 19 Objectives – Disease of the Nervous system

(10/06)

**Please note that the format of the objectives for the 4<sup>th</sup> Unit are different.** There are no definitions but lots of information that you have to learn. Don't wait till the last minute to study. Study before the presentation of each chapter and after. Essay questions will be taken from the major categories. Compare and Contrast questions are my favorite here. (ex. Discuss the disease "Bacterial meningitis")

AT THE COMPLETION OF CHAPTER 19, INFECTIONS OF THE NERVOUS SYSTEM, THE STUDENT WILL BE ABLE TO DESCRIBE THE CHARACTERISTICS FOR THE FOLLOWING:

A. MAJOR INFECTIOUS AGENTS:

1. Neisseria meningitides
2. Cryptococcus neoformans
3. RABIES
4. POLIOVIRUS

TYPE OF AGENT, TYPE OF INFECTION, MODE OF TRANSMISSION, TREATMENT, AND PREVENTION

B. THE STUDENT WILL BE ABLE TO RECOGNIZE AND DESCRIBE THE TYPE OF INFECTION FOR THE FOLLOWING:

1. ARBOVIRUSES
2. Clostridium tetani toxin
3. Clostridium botulinum toxin
4. Trypanosomes
5. Prion diseases
