The web-based ACC Faculty Online system shows accurate, up-to-date enrollments, giving faculty access to real-time class enrollment information. It is also the entry site for online grade submission.

Your online preliminary class roster includes student course and skill area prerequisite information along with the up-to-date enrollment information, giving faculty most current and useful class rosters. All class rosters are available at all times beginning with the first day of registration each semester.

The official (census date) class rosters will continue to be printed until they are available online. The next phase, bringing these online is scheduled to be completed by the end of the fall 2008 semester.
