

## Dental Hygiene Program is accepting patients

We are in need of patients for preventive services:

- Ages 6 and older
- People committed to the teaching of our student dental hygienists
- People who have time in their schedule for 3 to 5 appointments and can plan for their appointments to last 3 hours each

Our students and faculty will:

- Classify each patient to match his/her dental hygiene needs to the student's educational needs and preparation.

Patients accepted for dental hygiene care will receive:

- A head and neck cancer screening, dental x-rays as needed, a complete dental examination, and a very thorough teeth cleaning.
- Quality care at very affordable prices. The dental hygiene treatment fees are only a fraction of the costs since the clinic is a teaching facility. Every procedure is checked by a licensed dental professional.
- To schedule for your initial screening contact us at:

**Austin Community College**  
**Department of Dental Hygiene**  
**Phone (512) 223-5710** or stop by the  
Health Sciences Building during regular business hours:  
**Eastview Campus**, 3401 Webberville Road, Building 8000  
**Room 8162 – across from the campus Bookstore**
