NEW Retail Health Clinic Locations

Blue Cross and Blue Shield of Texas (BCBSTX) has expanded their Retail Health Clinic Network for HealthSelect of Texas participants in the Austin area. Members now have access to RediClinic LLC.

What is a Retail Health Clinic?

- A Retail Health Clinic is a health care clinic located in a retail setting that provides services of a routine nature rendered by appropriately licensed medical staff, which may include Advanced Practice Nurses, Physician Assistants, and/or Physicians.
- Typically you can seek care at a Retail Health Clinic without an appointment and your visit lasts about 15 minutes.
- Retail Health Clinics are located in a retail setting, such as a supermarket or pharmacy, and provide treatment of common illnesses and routine preventive health care services. RediClinic is now contracting with BCBSTX at six H-E-B store locations in the Austin Area as Retail Health Clinics.
- You and your covered dependents can seek medically necessary care at a network Retail Health Clinic without a referral from your Primary Care Physician. You will be responsible for a \$20 office visit copayment.
- If you receive services or supplies, at the Retail Health Clinic, you will be responsible for network coinsurance (20%).
- If services are rendered at a non-network Retail Health Clinic, you will receive non-network benefits.
- Below are examples of services a Retail Health Clinic may provide.
 - Treatment for Common Illnesses
 - Allergies
 - Bladder Infections
 - Ear Infections
 - Strep Throat
 - Skin Conditions
 - Skin Rashes
 - Minor Burns
 - Cold Sores
 - Wart Removal
 - Vaccines
 - DtaP (Diphtheria, Tetanus, Pertussis)
