MyMathLab Student Grace Period Instructions  
Spring Semester, 2010

Dear Student,

You have been given a grace period access code that allows you to use MyMathLab for 21 days. Read this entire document before you register a grace period access code.

To get access to MyMathLab for this grace period:

2. Click Register under Students on the CourseCompass home page.
3. Click Next on the Before You Start page.
4. Follow the instructions to register and enroll.
   You will be asked to:
   - Enter your course ID and click Find Course.
   - Verify the course information and click Access Code.
   - Type your grace period access code (from your instructor) in the space provided.
   - Click Next and follow the instructions to complete the registration.
5. Review the Confirmation & Summary page and print the page for your records. Within 21 days, you will either need to change to permanent MyMathLab access or else notify Customer Technical Support that you are not continuing with the course. Click Log In Now to enter your course.

To upgrade to full MyMathLab course access:

Before the grace period expires, you must upgrade your subscription to continue accessing your course. To do this, go to the Grace Period Subscription Upgrade page. On this page you can upgrade your subscription either by paying with a credit card or PayPal account, or by entering the MyMathLab access code from the access kit you purchased with or without a book from the bookstore. To do this, follow these instructions:

1. Go to the Grace Period Subscription Upgrade page.
2. Choose your upgrade method:
   - By using the access code I got in my access kit, or
   - By paying with a credit card or PayPal account
3. Follow the registration instructions.

Important: On the Access Information screen, be sure to select “Yes” in the “Do you have a Pearson Education account?” area and then type your MyMathLab login name and password.

What happens if I don’t upgrade before the end of the 21-day grace period?

If you do not upgrade your subscription within the 21-day grace period, your subscription will expire and you will not have access to your MyMathLab course.

If you miss the upgrade deadline, you may lose access to other CourseCompass courses that you are taking.

If you do not want to continue with your MyMathLab course, contact Customer Technical Support and ask to be removed from the course so you don’t lose access to your other courses.
