

Web Committee Meeting Minutes - 8/06

The Internal Template was finalized and the black bar navigation links were approved. If you would like the internal or external templates and the documentation that goes with them please email Edward Terry [HYPERLINK "mailto:eterry@austincc.edu" eterry@austincc.edu](mailto:eterry@austincc.edu)

The committee voted that no other logos shall appear on the ACC homepage other than for informational purposes that might appear in a news release, which by nature eventually rotates off of the homepage in normal news release posting rotation.

The Get Answers section of the ACC website now has the capability to export FAQs contained in a category to an external website. The content is administered through Get Answers and is reflected not only in the Get Answers section but in the webpage the content is exported to. Health Science's Sonography Department is currently testing this.

Example:

Sonography Get Answers Section: [HYPERLINK "http://www.austincc.edu/answers/index.php?action=show&cat=31" http://www.austincc.edu/answers/index.php?action=show&cat=31](http://www.austincc.edu/answers/index.php?action=show&cat=31)

Sonography Dept. Website: [HYPERLINK "http://www.austincc.edu/health/sono/faq.php" http://www.austincc.edu/health/sono/faq.php](http://www.austincc.edu/health/sono/faq.php)

If you would like your own section for Get Answers and accompanying content webpage on your site, please contact Edward Terry [HYPERLINK "mailto:eterry@austincc.edu" eterry@austincc.edu](mailto:eterry@austincc.edu).

The ACC logo has been updated. Please find all available logo files here:

[HYPERLINK "http://www.austincc.edu/marketing/logofiles.php" http://www.austincc.edu/marketing/logofiles.php](http://www.austincc.edu/marketing/logofiles.php)

The committee recognized the need for website accessibility. Texas Administrative Code (TAC)§206 - State Web Sites is an administrative law which outlines requirements for state of Texas websites in four distinct areas: Accessibility/Usability, Privacy/Security, Required Policies, and Linking/Indexing of state websites. The statute was published in the Texas Register on March 15, 2002. For the text of this statute, visit [HYPERLINK "http://www.dir.state.tx.us/standards/S206.htm" http://www.dir.state.tx.us/standards/S206.htm](http://www.dir.state.tx.us/standards/S206.htm). Resources, procedures, and other processes will be made available to website administrators in a variety of outlets to promote website accessibility

through out the institution. Discussion on this topic is ongoing.

Project highlight: Arts and Humanities new division website and division-wide gallery at HYPERLINK "http://www.austincc.edu/ah/" <http://www.austincc.edu/ah/>

Find-ability issues of images and media within the gallery application were brought up and considered.

Reports from Google Analytics from the top level of the website were submitted to the committee for review.

New Items:

A notice will be posted on all pages of "Inside ACC" (HYPERLINK "http://insideacc.austincc.edu/" <http://insideacc.austincc.edu/>) that they will be redirected to the Faculty and Staff page at HYPERLINK "http://www.austincc.edu/facstaff/" <http://www.austincc.edu/facstaff/> at the end of 2 weeks. This will become the home of the insideacc portal.

The IRT Technology Support site will be going live soon. A section for web development is included and it will be displayed for the committee to discuss.

The homepage will debut a section entitled "I am ACC" featuring student profiles (are below the red ball).

The Public Information and College Marketing department is continuing to assist departments both internal and external in website construction and revision.

If you have any new items or issues that need to be considered for the next web committee meeting please send them to Edward Terry HYPERLINK "mailto:eterry@austincc.edu" eterry@austincc.edu.
