

November 2002

Present: Gina Palacios (P/T), Mary Parker (FT Faculty), Donna Pitts (Classified), Jere Hammer (FT Faculty), Terry Arzola (IRT), Connie Park (Student Services), Tom Klumker (Marketing), and Ed Osborn (Chair).

Issues Raised:

- Some concern that the technical infrastructure behind our well-designed website isn't keeping up with all the content changes. IT needs to be represented at the Web Committee meetings.
- The Phone/email directory still needs work. There are accuracy issues, hourly emails aren't included, and we need to add administrative offices. (Ed said he would check on this.)
- Search engine still works intermittently.
- Web authors need a reminder that pages need a page owner and date of last update.
- Tom will create a form to respond to when "page not found" appears.
- "Current students only" will be removed from the top banner for online registration.
- Expectation that some interim pages (i.e., some EVP pages, Quicklinks, etc.) aren't needed now that the new Inside ACC is up.

The Future of ACC:

Ed showed the group this new site, which focuses on planning, finances, and facility issues related to the upcoming referendum in May 2003. Committee feels it should be in one location and have a special design. Once in place, email all faculty/staff.

Next Meeting

None in December. Query committee re January dates.
