Chapter 13: Hypoproliferative Anemias
Outline

1. Introduction
   a. Disorders
      i. Acquired
      ii. Congenital
   b. Defect

2. Aplastic Anemia
   a. Definition
   b. Pathophysiology
   c. Phases
   d. Types
      i. Acquired
      ii. Congenital
         1. Fanconi’s anemia
   e. Clinical manifestations
   f. Lab Features
   g. Treatment

3. Pure red cell aplasia
   a. Definition
   b. Types
      i. Congenital
      ii. Acquired

4. Other Hypoproliferative Anemias
   a. Definition
   b. Types
   c. Lab features
