Unit Name	Campus Manager - EVC
What improvements have been planned implemented	All Eastview Campus signage has been improved, updated, and replaced as a result of the FY2012 renovations in the Student Services, Admissions and Records, and Campus Police area, as well, as some parking lot signage.
How did you decide that these improvements would benefit your unit or what weakness is the unit trying to improve	Coordinated with Jerry Gilland, in Facilities and did a walk through of not only the newly renovated areas, but the entire campus including the parking lots. We determined where and how signs should be replaced and some areas needed new signage.
Description of what measures are going to be used to determine if the improvements were successful	The decision was based on the need to establish a consistent directional and updated signage throughout the entire campus. Jerry and I collaborated with all departments included in the renovations. This knowledge would help us provide consistent efficient in campus emergency directional signage.
baseline data used to determine improvements were needed	Collaboration with Gerry Gilliland, Coordinator, Computer-Aided Drafting, Campus Police staff, Admissions and Records staff, Student Services staff and some of the Health Science staff to determine the correct signage due to all the changes and moves.
target goal data that shows your improvements have achieved your goals	All signage was replaced in a timely manner and completed. A campus wide walk through was conducted to make sure all the areas were updated and maintain a consistent and efficient use of directional signage.
current data where you are currently in reaching your target	Task of completely updating and revising internal and external campus signage has been completed. As well as, all "Non Smoking Campus, signage implementation.

Narrative	<p>This project improved, updated, and replaced all Eastview Campus signage. It included all campus internal and external directional signage. This project completely overhauled and updated signage which included changes to departments' who have moved to different locations.</p> <p>Also, the signage in the parking were updated, which included additional signage to indicate which parking lot you are in, example: Parking Lot A, Parking Lot B, etc. Added additional signage is to direct people to the location of the campus's Handicap parking. As well as, additional "Non Smoking Campus" signage.</p>
