

## Enrollment Comparison: Fall 1998 and Fall 1997

The following tables display headcount, demographic, credit hour, contact hour and FTSE data for all Fall 1998 sessions, with comparisons to the same data for all Fall, 1997 sessions. Unlike enrollment comparison reports published for previous semesters, the data reported here were generated using the same methodology for both semesters. The Fall 1997 data presented here will not match that presented in last fall's *Preliminary Enrollment Summary*.

Notes: All deleted sections and accompanying enrollments are excluded. The new discipline to dean crosswalk that went into effect on October 23, 1998 is reflected in the numbers below. All data are as of October 22, 1998. Percentages may not total 100% due to rounding.

A. Total College-wide Headcount is the number that results when a student is counted one time for all courses in which they are enrolled regardless of location. Thus, a student enrolled in ENG, MTH, and HIS at RVS and in EDG at NRG is counted once.
