Degree - an award given as official recognition for the successful completion of a program of studies.

Field of Study Curriculum - is intended to facilitate the free transferability of lower-division academic courses among Texas public colleges and universities.

**Programs of Study
Fall 2006**

The educational programs of Austin Community College include workforce programs and academic/transfer programs. The workforce programs are designed to meet the increasing demand for skilled technicians and paraprofessionals for employment in industry and business. ACC awards both associate of applied science (AAS) degrees and certificates in workforce programs. Associate of arts (AA) and associate of science (AS) degrees are awarded as transfer degrees and correspond to the first two years of a baccalaureate program at four-year institutions.

The programs and program areas in which Austin Community College offers courses include the following:

**Institutional Awards
Academic Year 2006**

(September 1, 2005 - August 31, 2006)

Core Completers

The core curriculum is predicated on a series of basic intellectual competencies. ACC's core consists of 42-hours of general education courses in English, communications, mathematics, natural science, humanities, visual and performing arts, government, history, and an additional social and behavioral science.

When the 42-hour core curriculum is successfully completed, that block of courses may be transferred to any other public institution of higher education in Texas and must be substituted for the receiving institution's core curriculum. Students may or may not complete their degree or certificate requirements at the same time that they complete the core curriculum.

Field of Study

Field of study curriculum is intended to facilitate the free transferability of lower-division academic courses among Texas public colleges and universities.

When an ACC field of study curriculum is successfully completed, that block of courses may be transferred to any Texas public college or university. The field of study curriculum is substituted for that institution's lower division requirements of the degree program for the field of study into which the students transfer, and the student shall receive full academic credit toward the degree program of the block of courses transferred.
