

Information about MyMathLab

MyMathLab is an interactive online resource that accompanies the and includes the text.

In my sections of Elementary Algebra MyMathLab is required.

Purchasing MyMathLab

All *new* textbooks purchased at an ACC bookstore include MyMathLab access. It is *not* included with the purchase of a used book, and may not be included with a new book purchased at a different bookstore. Here are some other ways to purchase MyMathLab:

- You may purchase a Student MyMathLab Access Kit online from Pearson Higher Ed at: www.coursecompass.com
- Student MyMathLab Access Kits are available at other retailers, such as amazon.com. Use caution, as the product is not guaranteed by Pearson when purchased anywhere other than an ACC bookstore or the Pearson website (above).
- A new textbook bundled with MyMathLab may also be purchased from another retailer. Make sure the product specifically indicates a bundle including both the textbook and the software.

Included in MyMathLab

- Online access to all pages of the textbook
- Exercises tied to homework problems in the textbook
- Multimedia learning aids (videos & animations) for select examples and exercises in the textbook
- Practice tests and quizzes linked to sections of the textbook
- Personalized study guide based on performance on practice tests and quizzes

Visit www.mymathlab.com for more information.

Login information

To use MyMathLab, you'll need:

- Course ID-found on your syllabus
- Student access number: provided with purchase of MyMathLab access.

Minimum Computer Requirements

- Internet connection: Cable/DSL, T1, or other high-speed for multimedia content; 56k modem (minimum) for tutorials, homework, and testing.
- Memory: 64 MB RAM minimum
- Monitor resolution: 1024 x 768 or higher
- Plug-ins: You need certain plug-ins and players from the MyMathLab Browser Check or Installation Wizard (found inside your course).

For more information, visit the site <http://www.mymathlab.com/system.html> from the computer on which you intend to work.

Getting started

To register for CourseCompass and enroll in your MML course, you will need the following.

- email address
- Course ID
- Student access code

ACC email address

You need an email address to register for MyMathLab. For this and all other ACC-related activity, you should use your ACC student email address. If you have not set this up already, visit <http://www.austincec.edu/accmail/> for instructions. If you do not check this account regularly, set it up to forward to an email address that you do check. Instructions for doing this are included at the above link.

Course ID

Make sure you register with the correct Course ID. If you register with a course ID for a class that uses a different textbook, you will not be able to change it to the class that you are enrolled in without purchasing a new access code.

For me check the class specific syllabus. The syllabus for your class will have the course ID which includes my name then the number pruettt#####.

Student access code

The student access code comes with your purchased copy of MyMathLab.

Instructions

Now you are ready to register. Go to <http://www.coursecompass.com/> and follow these steps:

1. Click **Register** on the home page.
2. Click **Next** on the *Before You Start* page.
3. Follow the instructions to register and enroll. You will be asked to:
 - a. Enter your course ID.
 - b. Provide your access code or payment information.
 - c. Create a login name and password.
 - d. Provide contact information.

At the end of the registration process, you can click **Log In Now** on the *Confirmation & Summary* page to enter your course.

Send a confirmation email to yourself to check it was entered correctly.

If you do not get an email, log in and edit your profile and fix your email address.
