Pursuant with ACC Board Policy, G-2 Purchasing
(adopted December 1, 2014)
ACC Small Business Development (SBD) Program

Purpose:

The purpose of this Small Business division is to provide a race- and gender-neutral procurement tool for the Austin Community College District to use in its efforts to ensure that all segments of its local business community have a reasonable and significant opportunity to participate in District contracts for construction, architectural & engineering services, professional services, non-professional services, and commodities.

The Small Business Development (“SBD”) Program also furthers the District’s public interest to foster effective broad-based competition from all segments of the vendor community, including, but not limited to, small business enterprises and local business enterprises. This policy is, in part, intended to further the District’s compelling interest in ensuring that it is neither an active nor passive participant in private sector marketplace discrimination, and in promoting equal opportunity for all segments of the contracting community to participate in District contracts. Moreover, the SBD Program provides additional avenues for the development of new capacity and new sources of competition for District contracts from the growing pool of small and locally based businesses.

Definitions:

Small Local Business Enterprise (“SLBE”). An independently owned firm that is not dominant in its industry, and that satisfies all requirements of being both a “Small Business Enterprise” and a “Local Business Enterprise.”

Emerging SLBE (“ESLBE”). An emerging firm that meets all of the qualifications of a Small Local Business Enterprise, and:

- Has been in existence for at least one (1) year but is less than five (5) years old;
- Has no more than five (5) full-time and part-time employees;
- Annual gross sales as averaged over the life of the firm are less than $1 million.

Joint Venture (“JV”). An association of two or more persons or businesses carrying out a single business enterprise for which purpose they combine their capital, efforts, skills, knowledge and/or property. Joint ventures must be established by written agreement. Joint ventures must be certified on a bid-by-bid basis. The joint venture shall not be subject to the average gross receipts limits imposed by this section. However, each individual business participating in the joint venture must be certified by the SLBD Program as an SBE. This definition is subsumed within the definition of Small Local Business Enterprises.

Section G-2 Purchasing. For the purpose of this program, a firm will be certified as a Small and Local Business Enterprise (SLBE) or Emerging SLBE (ESLBE) with the SBD Program, upon its submission of
a completed certification form (SLBE/ESLBE), supporting documentation, and a signed and notarized affidavit affirming that it meets all of the SLBE/ESLBE eligibility criteria as set forth below:

1. An independently owned and operated for-profit business concern that;
   a. Is headquartered or otherwise located at a fixed, established commercial address located in the Austin-Round Rock-San Marcos MSA; and maintains a significant employee presence (currently 40% of total employee count)
   b. Has been in operations for at least one (1) year;
   c. Is not a subsidiary of another business;
   d. Is not dominant in its field of operation;
   e. Whose owners are actively involved in day-to-day management and control of the business; and
   f. Is performing a commercially useful function.

2. It meets the size standard eligibility requirements for Small Business Enterprises as defined below: Construction and specialty trade firms have not employed more than 50 full-time and part-time persons at any time during the last three (3) years, and that gross annual revenues of the business for its largest primary NAICS code have not exceeded an average of $9.125 million in its most recently completed three (3) fiscal years. If a business has not existed for three (3) years, the employment and gross revenue limits described above shall be applied based upon the annual averages not to exceed three (3) years.

Once the gross annual revenues of a business exceed the three-year (3) average gross annual revenue limits, it should no longer be eligible to benefit as an SLBE firm and should be permanently graduated from the Program. The size standards in annual gross revenue dollars should be reviewed annually and adjusted periodically to meet changes in market conditions.

Joint ventures must be certified on a bid-by-bid basis. The joint venture itself shall not be subject to the size standard limitations imposed by this section. However, each individual business participating in the joint venture must be certified by the SBD Program as an SLBE in order for the joint venture to receive the benefits of the SBD Program. This definition is subsumed within the definition of Small Local Business Enterprises.
