1.0 Purpose of the Addendum

In accordance with ACC's Request for Qualifications (the "RFQ"), This Addendum addresses changes to certain provisions and requirements of the RFQ in response to questions received by the Purchasing Department since its date-of-issue.

Except as specifically stated herein, this Addendum which will be addressed to all interested parties, is not meant to relieve any proposer of their duty to respond fully and completely to any requirement of the RFQ.

2.0 Items listed below are hereby incorporated into the RFQ:

2.1 Mandatory Pre-Submittal Meeting August 27, 2015
   2.1.1 Scanned Meeting Sign-In Pages
   2.1.2 Scanned Attendees Business Cards
   2.1.3 Scanned Meeting Agenda
   2.1.4 Questions & Answers from the Meeting

Offerors shall acknowledge receipt of this Addendum No. 2 by certifying below and returning this sheet with the RFQ package.

- Small Business Development Program : Jason
- Abatement of Old Section of Highland Mall – discussion and questions/answers
- All asbestos surveys conducted of old section of mall will be posted on FTP site
- Q&A From Pre-Submittal will be posted to both solicitations as an addendum
2.1.4 Pre-Submittal Meeting Questions & Answers

Q1. If the sheetrock is not hot is it all still going as asbestos?
A1. If it is touching asbestos then yes. We will be looking to the Environmental Engineering Consulting Firm to provide a plan.

Q2. As far as the overspray of the fire-proofing, it’s on the steel structure with overspray. So all the columns and beams and everything as far as the structure is sprayed with overspray. So you will have to demo all the finishes covering the structure to get to the asbestos. So it will be a lot of demo under containment?
A2. Yes, it will also be a lot of gyp board ceiling that has asbestos fibers all over the top of it that will have to go out as asbestos contaminated waste. All that information can be found in the surveys. Our current contractor has done some exploratory work above the ceiling and taken pictures that are all in the report.

Q3. Will the questions asked during the next walk-through be provided in an addendum?
A3. Yes

Q4. How many previous lease spaces are included in the 400,000 sq ft?
A4. We are not sure. Not every wall is a demising wall but they still need to come down. The expectation is that the building be cleaned to the steel structure leaving a blank slate for the next group to work on.

Q5. Does that include removal of the electrical and mechanical components?
A5. We can talk a little bit about the electrical. We need a new part of the mall operational while we do the abatement on the old part of the mall. The electrical in the new part of the mall is fed from the old part of the mall. We are currently working on getting the electrical wiring separated so we can continue to power the new part of the mall while the old part is completely de-energized. You will need to verify.

Q6. Will the power be disconnected prior to the abatement?
A6. Yes, the power will be disconnected and you will need to have generators.

Q7. Will there be temporary power panels?
A7. There will be an electrician on standby.

Q8. This is just the request for qualifications (RFQ)? When will the actual scope of work come out?
A8. Yes, this is the RFQ. All the contractors who meet the qualifications for Step-1 of the RFQ will be invited to provide their responses to the Step-2 requirements. The notification for Step-2 submittals will include information regarding scope of work. Those contractors invited to provide responses to Step-2 are NOT required to submit project pricing.

Q9. As far as the submittal, are there any different things from the last submittal?
A9. This is a brand new RFQ. The compliance history is new and not included in the original RFQ.

Q10. Is your intent to award the contract to more than one contractor?
A10. A contract will be awarded for asbestos abatement consulting services and a contract will be awarded for asbestos abatement services.

Q11. The RFQ states the submittal be a maximum 20 pages? Does that include licenses, certifications, etc?
A11. This is for total qualifications. This means twenty sheets of paper. You can utilize both sides. Licenses, certifications and other required documents do NOT count toward the 20 pages.

**END ADDENDUM 2**
