

## Physical Sciences Safety Training Requirements

<i>Training</i> →	Departmental Safety Training	ACC HazCom Training	ACC HazWaste Training	Science Field Activities Training	Blood-borne Pathogen Training	Lab Safety Training by Supervisor
<i>Position</i> ↓						
ASTR/PHYS/ENGR Faculty	1	2	4	5	6	
GEOL/ESTE Faculty	1	2	4	5	6	
Department Chair	1	2	3	3	3	
Safety Coordinator	1	2	3	3	3	
Laboratory Coordinators	1	2	3		3	
PHYS/ENGR Laboratory Technicians	1	2	3		3	
GEOL/ESTE Laboratory Technicians	1	2	3	5	3	
Hourly Employees and Work- Study Students						7

1. Required each year.
2. Required each year for returning staff. New employees take this in person from EHS when they are hired.
3. Required once. May be refresher courses in the future.
4. Recommended for all fulltime faculty. Required once if teaching a course that uses chemicals other than very dilute HCl
5. Required every two years for returning staff who take part in field activities. New employees must be trained before doing field activities.
6. Required once if teaching a course that includes bacterial sampling or field work in potentially contaminated water.
7. Required before assisting in lab-rooms.

For any questions or comments, please contact the Physical Sciences Safety Coordinator.
