Registering for MyMathLab

*MyMathLab is required for MATH 1314 Distance Learning*

You can get free access to MyMathLab for 14 days. See Step 4.

**Step 1: Go to PearsonMyLab site**

Go to [http://pearsonmylab.com/](http://pearsonmylab.com/) to start the registration process. Click on the Student button, under Register. Return to this site any time after registering to sign in and access your course.

**Step 2: Enter a course ID**

Your course ID is: reed82557

**Step 3: Log in to existing account, or sign up using ACC email address**

You need an email address to register for MyMathLab. For this and all other ACC-related activity, you should use your ACC student email address. See [http://www.austincc.edu/accmail/](http://www.austincc.edu/accmail/) for information. Check your ACC mail regularly, or forward it to another account.

If you have already used MyMathLab for this course or any other math course, use the same login and password you used before. If you took this course previously within the last year, using the same login will transfer your MyMathLab access to this MATD 0370 course at no cost.

**Step 4: Choose a form of payment, or request temporary access**

Begin this course with temporary access:

Get temporary access without payment for 14 days (use link at bottom of the screen): With this option, you can get started in the course before providing payment. A form of payment will be required after 14 days if you wish to continue.

Once you are sure you should be in this course, you can pay using one of the following:

Use an access code: A student access code can be found inside the back cover of a new textbook (either bound or loose) purchased from an ACC bookstore, or can purchased separately at an ACC bookstore.

Use a credit card or PayPal: Access to the course may instead be purchased online during the registration process. This is a good option if you do not intend to purchase a physical copy of the textbook.
Accessing the textbook

Sign in to your account and select the link for your course. Then:

1. Choose "Chapter Contents" from the course menu.
2. Choose the chapter and section you would like to look at
3. Choose “view the multimedia eText”

Purchasing options

All new textbooks purchased at an ACC bookstore include MyMathLab access. It is not included with the purchase of a used book, and may not be included with a new book purchased at a different bookstore. Here are some other ways to purchase MyMathLab:

- You may purchase access online during the MyMathLab registration process, using a credit card or PayPal.
- Student MyMathLab Access Kits are available at other retailers, such as amazon.com. Use caution, as the product is not guaranteed by Pearson when purchased anywhere other than an ACC bookstore or the Pearson website (above).
- A new textbook bundled with MyMathLab may also be purchased from another retailer. Make sure the product specifically indicates a bundle including both the textbook and the software.

About MyMathLab

MyMathLab is an interactive online resource that accompanies the text. It includes a copy of the textbook in pdf form.

Included in MyMathLab

- Online access to all pages of the textbook
- Exercises tied to homework problems in the textbook
- Multimedia learning aids (videos & animations) for select examples and exercises in the textbook
- Practice tests and quizzes linked to sections of the textbook
- Personalized study guide based on performance on practice tests and quizzes

Visit [www.mymathlab.com](http://www.mymathlab.com) for more information. You must have broadband internet to use MyMathLab.

Minimum computer requirements can be found at [http://pearsonmylabandmastering.com/system-requirements/](http://pearsonmylabandmastering.com/system-requirements/)
