Continuing Education programs at Austin Community College include Customized Training and Continuing Education.

- Customized Training provides customized contract training and education, and job profiling and assessment services to individual organizations to improve job performance and productivity of their employees.

- Continuing Education includes apprenticeship training in a range of programs that are registered with the U. S. Department of Labor, and personal, career, and business development courses of study designed to assist individuals in improving their job skills and meeting continuing education credit requirements of their professions.

Adult Education

Austin Community College has served as the prime sponsor of the Adult Education Program of Travis County Co-op since September 1973. The program is funded annually and evaluated by the Texas Education Agency (TEA). The federal portion of the funding is provided by the U.S. Department of Education through TEA. The state portion of the funding is provided by the State of Texas. Local funding is also provided by Austin Community College. A coordinating committee, comprised of public school superintendents and their representatives, human service agency representatives, members of the business community, and student representatives, serves as an advisory committee in accordance with TEA guidelines.

Programs

The Adult Education Program includes the following components.

1. *Adult Basic Education* (ABE) programs for the adult whose reading, writing, and arithmetic skills are below the ninth-grade level. These classes, which consist of both self-paced and group instruction, are also part of the entry component of adult secondary or GED preparation.

2. *General Education Development* (GED) classes are for the adult whose high school education was interrupted. These classes cover five areas: writing, social studies, science, reading, and math. GED classes are designed to assist students to prepare for the GED Test and offer life and job readiness skills.

3. *English-as-a-Second Language* (ESL) classes are for the adult who wants to speak and write English.

The following programs are specially funded through adult education and are designed for special populations.

1. *The Adult Education for Correctional Institutions* program provides adult basic education and GED preparation classes for inmates of city and county correctional facilities.

2. *The Adult Education Even Start Family Literacy* program helps break the cycle of poverty and illiteracy by improving the educational opportunities of the nation’s low income families by integrating early childhood education, adult literacy or basic education, and parenting education into a unified family literacy program.

Source: Office of Adult Education
The drop in enrollment for FY 1994-95 can be attributed to a reduction in funding allocations from state and federal sources resulting in a reduction of services for that year.

FY 1998-99 only includes students reported according to TEA guidelines.

The drop in graduates for FY 1994-95 can be attributed to new state requirements for high school graduation and the renorming of the GED test.
