

CELL1 – Animal (Human) Cell

Nucleus:

1. nuclear envelope (also called nuclear membrane)
2. nuclear pore
3. chromatin
4. nucleolus
5. rough endoplasmic reticulum (RER)
6. smooth endoplasmic reticulum (SER)
7. ribosomes
8. mitochondrion
9. Golgi apparatus (also called Golgi complex)
- 10 & 11 Not shown on this model
12. centriole
- 13, 14, 15, & 16 Not shown on this model
17. cytoplasm
18. cell membrane (plasma membrane)
