

CELL 2 – Animal (Human) Cell

Nucleus:

1. nuclear envelope (also called nuclear membrane)
2. nuclear pore
3. chromatin
4. nucleolus
5. rough endoplasmic reticulum (RER)
6. smooth endoplasmic reticulum (SER)
7. ribosomes
8. mitochondrion
9. Golgi apparatus (also called Golgi complex or Golgi body)
10. vesicle (transport vesicle)
11. vesicle (secretory vesicle)
12. centriole
13. lysosome
14. peroxisome
15. vesicle (pinocytic vesicle)
16. pinocytic passage
17. cytoplasm
18. cell membrane (plasma membrane)
