COURSE INFORMATION

COURSE DESCRIPTION
Physical geology is the study of the Earth system, minerals, rocks, structural geology, plate tectonics, geologic time, geological processes, and landforms. This course is designed to give a basic understanding of geology and geological techniques for both geology and non-geology majors. A Saturday field trip will be required.

PREREQUISITES
One year of high school science. Reading and math proficiency as proven by passing score on Texas Success Initiative (TSI) testing, or being TSI exempt.

COURSE RATIONALE
This course is designed to give a basic understanding of geology and geological techniques for both geology and non-geology majors. Physical Geology serves as the beginning course for geology majors, and introduces basic geological concepts and processes and techniques. At the end, you'll be able to amaze your friends and astound your family with your awe-inspiring knowledge of geology.

COURSE OBJECTIVES
• Review basic concepts of mathematics, chemistry, physics, and biology as applied to geology
• Learn the basic principles of geology and geological processes
• Develop an understanding of the methods geologists use to study the Earth
• Learn to identify common rocks and minerals

STUDENT LEARNING OUTCOMES
Course-Level Student Learning Outcomes
Upon successful completion of the course, students will be able to:
• Identify common rocks and minerals,
• Construct topographic maps and interpret geologic maps,
• Describe and explain processes and features within the Earth, particularly with regard to plate tectonics and the resulting geologic structures,
• Describe and explain processes operating on the surface of the Earth and the resulting landforms and features
Program-Level Student Learning Outcomes for Geology
Upon successful completion of the geology program, students will be able to:
- describe the scientific method and apply it in a geological context; and
- describe Earth’s major systems and explain how they interact; and
- identify common rocks, minerals, and fossils and interpret how they form; and
- describe and interpret the development of landforms and geologic structures; and
- describe the sedimentological, paleoclimatic, tectonic, and biological history of the Earth with a focus on North America; and
- construct and interpret geologic, stratigraphic, and topographic maps, cross-sections, and topographic profiles; and
- explain the plate tectonic theory and its relationship to earth processes, features, and landforms.

General Education Student Learning Outcomes
As a Core Curriculum course, students completing this course will demonstrate competence in:
- Critical Thinking
  o Gathering, analyzing, synthesizing, evaluating and applying information
- Quantitative and Empirical Reasoning
  o Applying mathematical, logical and scientific principles and methods

REQUIRED TEXTBOOKS

**NOTE**: Because you will be measuring directly from maps, the electronic version of the lab manual is not acceptable for this class.

REQUIRED COURSE SUPPLIES
- No. 2 pencils or mechanical pencils
- Pencil erasers. You’re going to need several.

Optional supplies:
- Set of colored pencils with at least 10 colors
- Basic electronic calculator
  **NOTE**: cell phones, PDAs, and laptop computers cannot be used as calculators on quizzes
- Three-ring notebook, 3”

INSTRUCTIONAL METHODOLOGY
This course will be taught in the classroom in a lecture/discussion format illustrated with videos and PowerPoint presentations, along with laboratory exercises. The lecture and lab sessions will generally complement each other, but the lectures focus on general geological topics, while the lab exercises will show you how to apply that knowledge in practical ways. Student learning will be assessed through graded laboratory exercises, in-class lecture and field activity examinations, and practical quizzes on laboratory exercises.

LABORATORY
**It is very important for you to attend all of the laboratory sessions.** You should read the assigned chapter in your laboratory manual before you come to class so that you can complete the exercise in the allotted time. Please check the course schedule or ask your professor if you are unsure when an assignment is due. Be forewarned: the lab component of this class is labor intensive and it is very easy to get so far behind that you can’t catch up.

OPEN LAB
Students who miss a laboratory or who need extra time to work on a lab should attend an open-laboratory session. Our geology lab technicians will be available to help you during open labs. This is your best opportunity to successfully complete your lab exercises and spend additional time with the minerals and rocks.
The Open Lab schedule for the semester will be posted outside the lab room and on the class Blackboard site. You must bring your own copy of the laboratory exercise to the open laboratory session of you go to a campus other than Cypress Creek.

FIELD TRIP
There is a mandatory class field trip on Saturday, October 28, 2017, from 8:30 a.m. to 5:30 p.m. Transportation will be provided by the College. You must observe all ACC policies and procedures including, but not limited to, policies regarding drugs, alcohol, tobacco use, standards of conduct, and sexual harassment. Weapons of any kind are prohibited on geology field trips.

You must participate in an ACC physical geology field trip to pass this course. Department policy states that students who do not attend the required field trip will fail this class. If you cannot attend our class trip, it is your responsibility to make arrangements in advance to participate in another professor’s field trip. Do not assume that if you miss the field trip, you will be able to make it up.

CAMPUS CARRY
The Austin Community College District concealed handgun policy ensures compliance with Section 411.2031 of the Texas Government Code (also known as the Campus Carry Law), while maintaining ACC’s commitment to provide a safe environment for its students, faculty, staff, and visitors.

Beginning August 1, 2017, individuals who are licensed to carry (LTC) may do so on campus premises except in locations and at activities prohibited by state or federal law, or the college’s concealed handgun policy. It is the responsibility of license holders to conceal their handguns at all times. Persons who see a handgun on campus are asked to contact the ACC Police Department by dialing 222 from a campus phone or 512-223-7999.

IMPORTANT: GEOL 1403 classes are held in an area designated as an exclusion zone as defined by state law or the college’s concealed handgun policy. Concealed carry is prohibited in exclusion zones. Concealed weapons must be stored in a secure place as defined by college policy prior to entering the classroom, studio, or learning space.

COURSE GRADE
Your final course grade will be calculated as follows:

<p>| | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Lecture examinations</td>
<td>3 x</td>
<td>100</td>
<td>300</td>
</tr>
<tr>
<td>Laboratory quizzes</td>
<td>4 x</td>
<td>50</td>
<td>200</td>
</tr>
<tr>
<td>Weekly reading quizzes</td>
<td>13 x</td>
<td>10</td>
<td>130</td>
</tr>
<tr>
<td>Laboratory exercises</td>
<td>19 x</td>
<td>5</td>
<td>95</td>
</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td></td>
<td></td>
<td><strong>725 points</strong></td>
</tr>
</tbody>
</table>

The following scale will be used to determine your course grade:

- 90-100%        A
- 80-89%         B
- 70-79%         C
- 60-69%         D
- Below 60%      F

EXAMINATIONS
Three in-class, closed-book examinations will be given. Questions will be drawn from lectures, handouts, reading assignments, and the field trip. A final exam on the last day of class will emphasize material covered since the last examination. Exams will consist of multiple choice, matching, short answer, and diagram labeling questions. Some or all exams may be “two-stage” exams that include a group component. No exams will be given early.
LABORATORY QUIZZES
Four graded, in-laboratory practical quizzes will contain questions from material covered in the labs. These include questions about samples of earth materials, maps, and photographs, as well as short-answer questions about terminology and methodology. No quizzes will be given early.

COURSE POLICIES

Attendance/Participation
Attendance will be taken every class period. Students are expected to attend lectures and lab and participate in class discussion, as tests and quizzes are derived from materials presented in lecture and lab as well as from the text. You will learn more from attending the classes than if you just read the text. Regular and punctual class and laboratory attendance is expected of all students. If attendance or compliance with other course policies is unsatisfactory, the instructor may withdraw students from the class.

Withdrawals
If you decide to drop this class, you must protect your academic record by withdrawing no later than Monday, November 27, 2017. It is your responsibility to verify that you have successfully withdrawn from the class before the final withdrawal date.

Missed Lab Quizzes
All lab quizzes will be given in the laboratory. There are no make-ups for missed lab quizzes.

Missed Exams
Make-up exams are only offered under extenuating circumstances. Arranging the make-up exam will be at the sole discretion of the instructor. If you wish to take a make-up exam, students must contact the instructor by email or by phone within 24 hours of the start of the class period in which they missed the exam.

Late Work
Late work will not be accepted. You are responsible for any assignment that you miss, and the due date remains the same. Check Blackboard, the class schedule, or contact the professor as soon as possible to get information on the assignment that you missed.

Blackboard
Students will be expected to access the Blackboard website for this course. All students have access to Blackboard via their student ID, but you will have to set up a password to gain access. Important class information will be posted on Blackboard, including lecture slides, copies of handouts, copies of homework assignments, etc. All students will be expected to routinely visit Blackboard; some class resources will only be available through Blackboard.

Classroom Etiquette
Please be seated and ready for class on time. Lectures start promptly. If you arrive late or need to leave early, please sit near the door. As common courtesy, please do not carry on conversations during lectures, and turn off audible sounds on your cell phone, pager, or computer before you come to class. Do not send text messages during class. Use of a laptop is acceptable, as long as its use is course-related. Students who are disturbing others will be asked to leave the classroom. Repeated offenses may result in the instructor dropping you from the class.

Student Discipline
Students enrolled in this course are expected to comply with the provisions of this syllabus and the Student Code of Conduct. With the exception of scholastic dishonesty, violations of the Student Code of Conduct will be reported to the Campus Dean of Student Services for disciplinary action. Any student suspected of scholastic dishonesty will meet in private with the professor to discuss the alleged offense(s) and review the evidence that supports the charge. After conferring with the student, the professor will dismiss the allegation or assess an academic penalty. A student will be informed in writing if an academic penalty is assessed. He or she should consult the Student Handbook for his/her rights and responsibilities.
**Academic Freedom**
Institutions of higher education are conducted for the common good. The common good depends upon a search for truth and upon free expression. In this course, the professor and students shall strive to protect free inquiry and the open exchange of facts, ideas, and opinions. Students are free to take exception to views offered in this course, and to reserve judgment about debatable issues. Grades will not be affected by personal views. With this freedom comes the responsibility of civility and a respect for a diversity of ideas and opinions. This means that students must take turns speaking, listen to others speak without interruption, and refrain from name-calling or other personal attacks.

**ACC ACADEMIC POLICIES AND SERVICES**([http://www.austincc.edu/handbook/](http://www.austincc.edu/handbook/))

**Attendance/Class Participation:** Regular and punctual class and laboratory attendance is expected of all students. If attendance or compliance with other course policies is unsatisfactory, the instructor may withdraw students from the class.

**Withdrawal Policy:** It is the responsibility of each student to ensure that his or her name is removed from the roll should he or she decide to withdraw from the class. The instructor does, however, reserve the right to drop a student should he or she feel it is necessary. If a student decides to withdraw, he or she should also verify that the withdrawal is submitted before the Final Withdrawal Date. The student is also strongly encouraged to retain their copy of the withdrawal form for their records. Students who enroll for the third or subsequent time in a course taken since Fall, 2002, may be charged a higher tuition rate, for that course. State law permits students to withdraw from no more than six courses during their entire undergraduate career at Texas public colleges or universities. With certain exceptions, all course withdrawals automatically count towards this limit. Details regarding this policy can be found in the ACC college catalog.

**Incompletes:** An instructor may award a grade of “I” (Incomplete) if a student was unable to complete all of the objectives for the passing grade in a course. An incomplete grade cannot be carried beyond the established date in the following semester. The completion date is determined by the instructor but may not be later than the final deadline for withdrawal in the subsequent semester.

**Statement on Scholastic Dishonesty:** A student attending ACC assumes responsibility for conduct compatible with the mission of the college as an educational institution. Students have the responsibility to submit coursework that is the result of their own thought, research, or self-expression. Students must follow all instructions given by faculty or designated college representatives when taking examinations, placement assessments, tests, quizzes, and evaluations. Actions constituting scholastic dishonesty include, but are not limited to, plagiarism, cheating, fabrication, collusion, and falsifying documents. Penalties for scholastic dishonesty will depend upon the nature of the violation and may range from lowering a grade on one assignment to an “F” in the course and/or expulsion from the college. See the Student Standards of Conduct and Disciplinary Process and other policies at [http://www.austincc.edu/current/needtoknow](http://www.austincc.edu/current/needtoknow)

**Student Rights and Responsibilities:** Students at the college have the rights accorded by the U.S. Constitution to freedom of speech, peaceful assembly, petition, and association. These rights carry with them the responsibility to accord the same rights to others in the college community and not to interfere with or disrupt the educational process. Opportunity for students to examine and question pertinent data and assumptions of a given discipline, guided by the evidence of scholarly research, is appropriate in a learning environment. This concept is accompanied by an equally demanding concept of responsibility on the part of the student. As willing partners in learning, students must comply with college rules and procedures.

**Statement on Students with Disabilities:** Each ACC campus offers support services for students with documented disabilities. Students with disabilities who need classroom, academic or other accommodations must request them through Student Accessibility Services (SAS). Students are encouraged to request accommodations when they register for courses or at least three weeks before the start of the semester, otherwise the provision of accommodations may be delayed. Students who have received approval for accommodations from SAS for this course must provide the instructor with the ‘Notice of Approved Accommodations’ from SAS before accommodations will be provided. Arrangements for academic accommodations can only be made after the instructor receives the ‘Notice of Approved Accommodations’ from the student. Students with approved accommodations are encouraged to submit the ‘Notice of Approved Accommodations’ to the instructor at the beginning of the semester because a reasonable amount of time may be needed to prepare and arrange for the accommodations. Additional information about Student Accessibility Services is available at [http://www.austincc.edu/support/osal](http://www.austincc.edu/support/osal/)

**Safety Statement:** Austin Community College is committed to providing a safe and healthy environment for study and work. You are expected to learn and comply with ACC environmental, health and safety procedures and agree to follow ACC safety policies. Additional information on these can be found at [http://www.austincc.edu/ehs](http://www.austincc.edu/ehs). Because some health and safety circumstances are beyond our control, we ask that you become familiar with the Emergency Procedures poster and Campus Safety Plan map in each classroom. Additional information about emergency procedures and how to sign up for ACC Emergency Alerts to be notified in the event of a serious emergency can be found at: [http://www.austincc.edu/emergency](http://www.austincc.edu/emergency). Please note, you are expected to conduct yourself professionally with respect and courtesy to all. Anyone who thoughtlessly or intentionally jeopardizes the health or safety of another individual will be dismissed from the day’s activity, may be withdrawn from the class, and/or barred from attending future activities. You are expected to conduct yourself professionally with respect and courtesy to all. Anyone who thoughtlessly or intentionally jeopardizes the health or safety of another individual will be immediately dismissed from the day’s activity, may be withdrawn from the class, and/or barred from attending future activities.
Use of ACC email: All College e-mail communication to students will be sent solely to the student’s ACCmail account, with the expectation that such communications will be read in a timely fashion. ACC will send important information and will notify you of any college related emergencies using this account. Students should only expect to receive email communication from their instructor using this account. Likewise, students should use their ACCmail account when communicating with instructors and staff. Instructions for activating an ACCmail account can be found at http://www.austincc.edu/accmail/index.php

Testing Center Policy: Under certain circumstances, an instructor may have students take an examination in a testing center. Students using the Academic Testing Center must govern themselves according to the Student Guide for Use of ACC Testing Centers and should read the entire guide before going to take the exam. To request an exam, one must have an ACC Photo ID, the Course Abbreviation (e.g. GEOL), the Course Number (e.g. 1301), the Course Synonym (e.g. 03293), the Course Section (e.g. 002) and the Instructor’s Name. Do NOT bring cell phones to the Testing Center. Having your cell phone in the testing room, regardless of whether it is on or off, will revoke your testing privileges for the remainder of the semester. ACC Testing Center policies can be found at http://www.austincc.edu/testctr/

Student and Instructional Services: ACC strives to provide exemplary support to its students and offers a broad variety of opportunities and services. Information on these services and support systems is available at: http://www.austincc.edu/s4/ Links to many student services and other information can be found at: http://www.austincc.edu/current/ ACC Learning Labs provide free tutoring services to all ACC students currently enrolled in the course to be tutored. The tutor schedule for each Learning Lab may be found at: http://www.autincc.edu/tutor/students/tutoring.php For help setting up your ACCeID, ACC Gmail, or ACC Blackboard, see a Learning Lab Technician at any ACC Learning Lab.

CYPRESS CREEK CAMPUS SAFETY RULES AND INFORMATION

You can read the complete ACC science safety policy at: http://www.austincc.edu/sci_safe/

EMERGENCIES
ACC POLICE DISPATCH: 222 (from an ACC phone) or 223-7999 (from a cell or other phone)
The red phone is located on the counter near the printer.
Tell the operator you are at the Cypress Creek Campus, Room 2236.
In an evacuation:
• Take your personal belongings with you if possible.
• Take the stairway behind the lab to exit the building. DO NOT USE ELEVATORS.
• Go to the Rally Point near the faculty parking on the north side of campus.
• DO NOT LEAVE CAMPUS.

FIRE
The nearest fire extinguishers are located by the door to the prep room near the chemical shower and in the Prep room.
To use the extinguisher:
• twist the pin and then pull it out of the handle
• hold the end of the hose and point it at the base of the fire
• squeeze the handle
A fire blanket is located next to the Prep room door, by the chemical shower.

GENERAL LAB SAFETY
Eyewashes are located on both sides of the lab at the sinks.
A safety shower is located near the door to the prep room.
First aid kit is located on the wall near the chemical shower.
• Serious injuries must be treated in a medical facility
• Emergency Medical Services (EMS) will be called if you are injured and are unable to take yourself to a medical facility
Lab chemical information can be found in Material Safety Data Sheets (MSDSs) located in the white binder by the printer.
Electrical safety from touching wires or equipment:
• Pull out electrical cords at the plug not by the cord
• In the event of electrical shock:
  o Push the large RED emergency shut-off button located by both main doors of the lab room. These buttons will cut off electric power to the lab tables
  o Use a meter stick, belt or other non-conducting material to pull the person away from the electrical source.
Personal Protective Equipment (PPE)
• Shoes – Closed-toed shoes are recommended when rock and mineral specimens and chemicals are used in the lab.
STANDARD LAB POLICIES

- Report all broken equipment, glass, ceramics or other materials to your professor or lab tech.
- Do not dispose of broken materials on your own.
- Return all supplies to their designated storage unless directed otherwise by your professor.
- Clean up your lab space before leaving the lab.
- Refrain from using computer power cords unless the cords remain off the floor or chairs.
- Follow all procedures in manuals and handouts, and instructions given by the professor or laboratory technician.

DO NOT:

- Come to class while intoxicated or under the influence of drugs.
- Place liquids near computers, keypads, or other electrical equipment.
- Block walkways with a backpack, coat or other personal items.
- Touch or come into contact with anyone else's body fluids.

You will not be able to participate in a lab activity if you have not followed safety policies and procedures for that lab or field activity.
You may be withdrawn from the class and not reinstated if you repeatedly fail to follow lab safety policies and procedures.
You may be expelled from ACC if you thoughtlessly or intentionally jeopardize the health or safety of another individual.
