Mission of the College

Austin Community College is an educational institution committed to challenging the human mind to explore new ideas and seek new opportunities. The College mission is to provide a wide range of high quality educational services that meet the needs of our willing partners in learning, both those who seek our services and those whom we must seek out.

Austin Community College operates on the belief that open access to quality postsecondary educational experiences are vital in a rapidly changing democratic society. Therefore, the College exists to provide such educational opportunities to all the people of the Austin Community College service area. Hence, Austin Community College maintains an "open door" admissions policy, offers a comprehensive variety of postsecondary educational programs, and actively seeks to eliminate barriers in the educational process.

A. Types of Programs

Austin Community College offers the following types of programs, services, and instruction to fulfill its mission and to satisfy state law for public junior and community colleges:

- [a] Vocational and technical programs of varying lengths leading to certificates or degrees.
- [b] Freshman- and sophomore-level academic courses leading to an associate degree or serving as the base of a baccalaureate degree program at a four-year institution.
- [c] Continuing adult education for academic, occupational, professional, and cultural enhancement.
- [d] Special instructional programs and tutorial service to assist underprepared students and others who wish special assistance to achieve their educational goals.
- [e] A continuing program of counseling and advising designed to assist students in achieving their individual educational and occupational goals.
- [f] A program of technology, library, media, and testing services to support instruction.
- [g] Contracted instructional programs and services for area employers that promote economic development.

B. Intended Results

- [1] The basic result to be produced by the College, in conjunction with other community sectors, is that all service-area adults legally qualified for College services have the postsecondary and higher education they need and can use for productive, successful lives. How close the local community is to this goal is a central accountability indicator for the College. However, declaration of this goal is not a guarantee of particular services, program admissions, or resource allocations; these are decided through the program-review, admissions, and budget processes.
- [2] Accredited preparation shall be provided for as many career areas and university-transfer options within the mission of the College as is feasible. Emphasis shall be placed on providing postsecondary education (including needed preparation) to people who are educationally disadvantaged or are not well-served by other colleges, and on preparation for family-wage careers (either directly or after further higher education).
- [3] In addition to mastery of the specific subject-area knowledge and skills needed to meet their education-related goals, students completing College programs shall have the general skills needed for success in employment and higher education: these include dependability, effective communication,

gathering and critically assessing information, problem-solving, teamwork, leadership, and a focus on producing results of high quality.

- [4] The College shall organize its activities so as to produce as high a level of overall value for the community as possible, and shall avoid procedures that waste the money or time of students or staff.
- [5] The College shall create a good place to work, to learn, and to otherwise experience the higher-education process.

The Austin Community College Board of Trustees adopted this policy on February 13, 1973, and amended it on March 4, 1974, September 2, 1975, January 18, 1982, September 24, 1984, February 3, 1997, and May 1, 2000.

Statement of Values and Ideals

The ACC district will fulfill its mission to the extent of its fiscal and legal capacity in support of the following ideals:

Quality: Emphasis on teaching; High educational standards; A faculty and staff dedicated to the success of all students; An environment conducive to personal excellence and growth for all students; Assurance of broad acceptance of transfer courses by four-year institutions; Relevance to employment needs of vocational/ technical courses; A plan for educational excellence that includes identification of at-risk students

Flexibility: Adapting to our community during times of rapid social and technological change; Developing an open curriculum that accommodates rapid change; Designing instructional methodologies and providing technological equipment relevant to a changing society; Ensuring continued professional competence of faculty and staff at all levels

Accessibility: An open door for all those who wish to attend; Assessment of entering student academic abilities; A determination to actively seek out those who may benefit from a community college education; The belief that every individual should have the opportunity to pursue a higher education; A tuition/fee structure that promotes accessibility; Creative ways to provide services to the community

Diversity: Understanding our world as one large, complex community; Fostering a genuine appreciation of a multi-cultural community; Promoting a genuine belief in the dignity, equality and value of every person

The Austin Community College Board of Trustees adopted this policy on March 4, 1974 and amended it on November 13, 1989 and May 1, 2000.

Historical Profile

Austin Community College (ACC) was established in December 1972 by voters of the Austin Independent School District. In the fall of 1973, ACC registered 2,363 students. Classes began on September 17, 1973. The AISD Board of Trustees served as ACC's Board of Trustees, and the College shared the district's boundaries.

In December 1978, ACC was accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS) to award associate degrees. ACC's enrollment had increased to 13,481 students.

On March 1, 1982, the Board, following the guidelines of the Texas Education Code, established its own governing Board of Trustees, consisting of nine elected members. Accreditation was reaffirmed by SACS in 1983 and 1993.

With its purchase of the Austin Country Club in January 1983, ACC acquired its first real estate. Situated at 5712 East Riverside Drive, the property is now ACC's Riverside Campus. ACC's Board of Trustees held its first election in the spring of that year.

On November 5, 1985, 83 percent of the citizens of the Leander Independent School District voted to become part of the ACC district.

Following the passage of the 1985 General Appropriations Act, which stated that "it is the intent of the Legislature that all public junior colleges receiving state appropriations shall initiate procedures necessary to secure ad valorem revenues sufficient to supplement the funding of the district by August 31, 1987," ACC held a successful tax base election. The measure approved a maximum of 5 cents per \$100 assessed property valuation.

On November 3, 1998, 70 percent of Manor Independent School District citizens voted to join the ACC district.

The College maintains six campuses in addition to the Highland Business Center, which houses the administrative offices and a business training center. The campuses are Rio Grande (1975), Riverside (1984), Northridge (1989), Pinnacle (1990), Cypress Creek (1991), and Eastview (1999). The newest addition is the Downtown Education Center which opened April 2000.
