### Review of Austin Community College Revenue and Expenditures

Austin Community College receives its funds from three primary sources of revenue: state funding, property taxes, and student tuition and fees. Federal grants account for a small percentage of revenue, and those funds can only be used for specific purposes as defined in the grant guidelines.

Tuition and fees are set by the Board of Trustees. Unlike state reimbursement, tuition and fee income may be spent for any College purpose, including retirement of revenue bonds, which could be used for limited construction purposes.

The College budgets according to these categories:

- General Administration and Student Services - government of the institution; executive direction and control; business and fiscal management; admissions and registration; other student services, including counseling, placement services, and student financial aid.
- General Institutional Expense - expenses of a general nature that benefit the entire institution and are not related solely to any specific program or division (cost of catalogs, bulletins, convocations, lectures, etc.).
- Staff Benefits - costs toward benefit programs for employees such as insurance programs, workers compensation, and unemployment compensation.
- Resident Instruction - there are two classifications: General Academic Courses and Vocational-Technical Courses. Costs include departmental operating expenses, instructional administration, salaries, wages, supplies, travel, equipment, and operating expenses.
- Learning Resource Services - costs for salaries, wages, other operating costs, books, periodicals, binding costs and equipment of separately organized libraries.
- Extension and Public Service - all costs of activities designed to serve the general public to include community service programs, instructional salaries and wages, supplies, equipment and departmental operating expenses.
- Physical Plant Maintenance and Operations - includes salaries and wages, custodial and maintenance personnel, cost of utilities, cost of supplies and equipment for custodial and maintenance personnel, minor repairs and renovations, parking areas and security, and the cost of operating expenses to carry out the duties of physical plant administration. Planning and general services must be funded from local funds.
- Special Items - cost of items not included in any other elements such as reserve accounts, contact hour adjustments, tuition shortfall, reserve for contingency, and retirement of Bond Debt.
- Major Repairs and Rehabilitation of Buildings - includes expenses to provide major repairs, rehabilitation, and renovations of existing buildings and facilities, salaries, wages, and the cost of materials for such items.
