**Institutional Awards
Academic Year 2003**

(September 1, 2002 - August 31, 2003)

Core Completers

The core curriculum is predicated on a series of basic intellectual competencies. ACC's core consists of 42 hours of general education courses in English, communications, mathematics, natural science, humanities, visual and performing arts, government, history, and an additional social and behavioral science.

A successfully completed ACC core curriculum will transfer to any other public institution of higher education in Texas and must be substituted for the receiving institution's core curriculum. Students may or may not complete their degree or certificate requirements at the same time that they complete the core curriculum.

-----------------	-----

Field of Study

Field of study curricula are intended to facilitate the free transferability of lower-division academic courses among Texas public colleges and universities.

A successfully completed ACC field of study may be transferred to a general academic teaching institution and must be substituted for that institution's lower division requirements of the degree program for the field of study into which the student transfers; and the student shall receive full academic credit toward the degree program of the block of courses transferred.
