

Austin Community College Transfer Student Performance Report Spring 1999

In April, 1995, the Texas Association of Junior and Community College Instructional Administrators (TAJCCIA) recommended Texas community colleges, "collect and maintain data to identify specific problems and improve results of student transfer from two-year to four-year colleges." (*Transfer Success Work Group Report, April, 1995.*)

In response to that recommendation, a previous report examined the transfer rate of Austin Community College this report provides information on the performance of students at the transfer institution. It attempts to answer the question:

How Successful are ACC Transfer Students at the Four-Year Institution?

Transfer student performance data available from the institutions to which ACC students transfer varies from institution to institution. Some institutions have provided ACC with end of the first year GPAs, while others have provided the number and percent of ACC transfer students in "good standing" at the end of an academic year. Some have provided comparisons with other transfer students, GPAs in target courses, and some provide no data at all. Thus, it is difficult to compose a comprehensive picture of ACC transfer student performance at all transfer institutions. What follows are data that *are* available from the individual institutions in which most ACC transfer students enroll. These performance data will be presented for each institution. In this report, all students previously enrolled at ACC and currently (as of the report data date) enrolled in the transfer institution are "transfer students."

The University of Texas at Austin (UT) enrolls the majority, (63%) of ACC's transfer students. Data from UT indicate, on average, ACC transfer students do well in their first semester. ACC students entering UT in 1996 earned a first fall semester overall average GPA of 2.78 on a four point grading scale; those entering UT in 1994 earned an overall average GPA of 2.75. The University also calculated a GPA for each of five discipline areas: English, math, science, foreign language and social sciences. For Fall 1996, ACC transfer student average GPAs by discipline indicate ACC students performed better in English (2.66) and foreign language (2.51) than in social sciences (2.14), math (2.13), and science (2.02). For 1994, the same pattern was apparent: English (2.70) and foreign language (2.59) and social sciences (2.13), math (2.13), and science (2.02). From 1994 to 1996, discipline GPAs decreased in English, foreign language, and social science, but remained the same for math and science.

Both in Fall 1996 and Fall 1994, compared to all students transferring to the University of Texas at Austin, including students from other universities and those from community colleges, ACC students performed only slightly less well overall and in each discipline. Table 1 displays these data for ACC and all transfer students.

Table 1: First Fall Semester Performance of ACC Transfer Students at The University of Texas

University of Texas at Austin	Enrolled Summer or Fall 1996		Enrolled Summer or Fall 1994	
	ACC N=670	All Transfers N=2,020	ACC N=625	All Transfers N=1,882
Average UT GPA	2.78	2.80	2.75	2.75
Average GPA by Discipline:				
English	2.66	2.79	2.70	2.69
Math	2.13	2.26	2.13	2.23
Science	2.02	2.12	2.02	2.15
Foreign Language	2.51	2.63	2.59	2.59
Social Sciences	2.14	2.23	2.13	2.21

Source: *The University of Texas First Year Academic Report, 9/16/98 and 9/24/96*

Southwest Texas State University (SWTSU) enrolls about 20 percent of ACC's transfer students each year. Data provided by SWTSU indicate that over the last seven years, ACC students have performed well their first fall semester at SWTSU, maintaining an overall average GPA that hovers at 2.50 on a four point scale. Additionally, for each of those years, compared to students transferring from all other community colleges, the average GPA for ACC Transfer Students has been slightly higher than the average GPA for All Community College Transfer Students. Table 2 displays these data.

Table 2: First Fall Semester Performance of ACC Transfer Students to Southwest Texas State University

First Fall Semester	ACC Transfer Students		All Community College Transfer Students	
	N	Average GPA	N	Average GPA
1997	552	2.50	1,621	2.45
1996	429	2.51	1,495	2.46
1995	463	2.52	1,457	2.43
1994	439	2.46	1,454	2.39
1993	428	2.54	1,362	2.44
1992	404	2.52	1,236	2.45
1991	522	2.36	1,623	2.32

Source: *Performance of New Transfer Students from Texas 2-year Institutions Pursuing Their First Undergraduate Degree at Southwest Texas State University Reports, 1991-1997*

Texas A&M University (TAMU) in College Station provides data on the performance of students who transfer there from ACC in a different and rather interesting format. Rather than an overall GPA, TAMU links a “foundation” course taken at the institution from which students transfer with its “target” course taken at TAMU, then calculates an average GPA for the *course* for ACC transfer students, all transfer students,

and all “native” students (those who took both the foundation and target courses at TAMU). See Attachment 1.

This type of performance data is useful particularly to faculty, for examining indications of strengths and weaknesses of their programs. However, to be able to make observations of ACC transfer students' overall performance at TAMU, an overall average GPA must be calculated from the course-specific data. The resulting overall average GPA's for academic year 1995-1997 indicate ACC students do well in TAMU “target” courses, in fact performing as well as, or better than, other transfer students overall in “target” courses. As would be expected, native students perform slightly better than either of the previously mentioned sub-groups. Table 3 displays these data.

Table 3: Overall GPAs for Texas A&M University Target Courses

Report Year	ACC Transfer Students		All Transfer Students		Native TAMU Students	
	N	GPA	N	GPA	N	GPA
1997	382	2.4	15,273	2.4	46,428	2.6
1996	439	2.5	16,013	2.3	48,010	2.6
1995	332	2.5	12,005	2.3	37,329	2.6

Source: TAMU Foundation Course Tracking Reports, 1995-1997

Summary:

ACC's students who transfer to universities do well, earning first fall semester overall GPAs that range from 2.4 to 2.8 in a four point system. ACC transfer students perform as well as, or better than, other transfer students from community colleges and from universities.
