AVP for Human Resources

The Internal College Survey was distributed to ACC employees in Spring 2005. Respondents were asked to rate their satisfaction with overall quality, promptness of service, and the service attitude provided by support offices in Fall 2004. There were 580 respondents to the survey. The survey was designed to reflect the organizational structure of ACC in Fall 2004; therefore, all analysis is based on that structure.

Who uses this office?

Of the 580 survey respondents, 199 (34%) reported having requested or received services from the Office of the AVP for Human Resources in the past year. Of those respondents:

- 71% (141 respondents) were Non-faculty (includes Administrators, Classified Employees, and Professional/Technical Employees);
- 18% (36 respondents) were Full-time Faculty;
- 3% (5 respondents) were Adjunct Faculty (includes Continuing and Adult Education Faculty); and
- 9% (17 respondents) did not identify an employee category.

How satisfied are employees with overall services from this office?

Results of the Spring 2005 Internal College Survey indicate a smaller percentage of employees are satisfied with the services of this office than the previous three years. In comparison to the data collected last year, the number of respondents reported having requested or received services from this office has increased from 165 to 199.

In reviewing the results for an office, keep in mind that there were four questions on the Internal College Survey for an employee to give feedback on a specific office: (1) "Have you used services in the last year? Yes?"; If yes, how satisfied were you with the services of this office? (2) "overall quality", (3) "promptness", and (4) "service attitude". Not every employee responded to all four questions about an office. Thus, the total number of respondents for each question might vary, yielding different percentages for the same numbers.
