

First Look

The following two reports highlight those items where your college falls notably above or below the mean of your comparison group. The first report provides this data for ***all students*** at your college while the second provides the data by ***enrollment status*** (part- and full-time). It is designed to provide a summary of results displayed following the Means Summary tab.

The items listed are significant at $p < .001$ with an effect size greater than or equal to .2. The effect size represents the magnitude of the discrepancy between your college and the comparison group in the student or institutional behavior represented by the item. Using both probability and effect size measures increases the likelihood that the quality of the student experience represented by the item(s) is appreciably different from other colleges of similar size; and the results, therefore, may be of practical as well as statistical significance.

Austin Community College: First Look All Students

Above the Mean

COLLEGE ACTIVITIES

4u. Skipped class

STUDENT SERVICES

13d1. Frequency: Peer or other tutoring

13d2. Satisfaction: Peer or other tutoring

Below the Mean

COLLEGE ACTIVITIES

4b. Made a class presentation

Austin Community College: First Look All Students Compared to HSI HACU Institutions
