TEXAS CREWS — Texas Consumer Resource for Education and Workforce Statistics

The Texas Consumer Resource for Education and Workforce Statistics (Texas CREWS) is an interactive dashboard tool providing comparative information about Texas public 2-year and 4-year postsecondary institutions. By evaluating programs and institutions on the basis of resultant wages and student loan levels, Texas CREWS will allow parents and students to make informed decisions about college and get the best return on their educational investment.

GET STARTED

Click to get started, then use the dropdown menus to search by program/major, institution, or by the occupation field of interest.

TEXAS CREWS

Texas Consumer Resource for Education and Workforce Statistics

Back

The Texas Consumer Resource for Education and Workforce Statistic (TXCREWS) website provides you with three career path research methods. Each allows you to compare wages related to various degree programs/training and career choices with the wages earned by former graduates in those fields.

* The first method aids you in selecting a major.
* The second method allows you to select an Area of Study. Within the Area of Study, select an Occupation followed by selecting a Major with that Area of Study and Occupation.
* The third method allows you to compare by first selecting a type of institution and an institution that falls within that institutional category.

Select a Major
