Notes to Budget Planning Book For FY 2003

Methodology

Faculty and sections were counted by identifying the primary course variable in the ACC Computer System. Analysis of enrollments, credit hours, and contact hours were not based on the primary course variable in the ACC Computer System.

Faculty Status Definition

The determination of faculty status is made on a fiscal year basis. If a member of the faculty is has a full-time assignment any time during the fiscal year, the faculty member will be considered "full-time" for the entire year. If a member of the faculty has a part-time assignment any time during the fiscal year, and has no full time assignment, the faculty member will be considered "adjunct" for the entire year. Only if the faculty member has no full or part-time assignment during the fiscal year will the member be assigned to the "other" category.

ACC Campus Location Definition

Campuses: Six campuses including Cypress (CYP), Eastview (EVC), Northridge (NRG), Pinnacle (PIN), Rio Grande (RGC), Riverside (RVS).

Extension Centers (Ext.Ctr.): Locations other than campuses that are staffed, have regular posted hours, and offer credit courses on a regular basis (every semester).

Telecommunicated Instruction (Tele): Courses delivered to individuals and groups by synchronous and asynchronous methods. This definition overrides all other campus definitions. In other words, if it is a telecommunicated course taught at a main campus or at an extension center, it is counted as a telecommunicated course.

Site-based Instruction (S. Based): Includes various credit and non-credit classes and training to businesses, and government entities, high schools, correctional institutions, and community groups.

--- Valid comparisons of data prior to Fall 2000 to current data cannot be made due to incompatibilities between the old and new student databases and changes in ACC's academic organization. As much as possible, the data in these reports reflect the current ACC organizational structure.
